

ACETAL FRAME

CLIP ON VENEERS

PROVISIONAL SPLINTS

Flexite Acetal The Super Versatile Plastic!

Whether it is unbreakable clasps and frames for patients who demand tooth colored clasps, Clip-on veneers to hide unsightly diastemas or provisional prosthesis, you can count on Flexite Acetal resin to meet your demands.

There are many advantages in using Acetal. Noted for its inherent strength, Flexite Acetal can be thinned down to the minutest thickness without losing color or memory.

FLEXITE ACETAL IS AVAILABLE IN NEW HUE AND VITA SHADES
