Health history for hair test 255

1) What are your current symptoms and health history?

Health history:

first panic attacks in summer 1999 several weeks after my dental work. By then I felt tired and had bad vision. Since then my health has gone down slowly. More symptoms flared up during this time:

chest pain, sinus pain, belly aching....

Till two years ago when I took chlorella and my health crashed.

Nowadays:

Extreme mental and physical fatigue.

Bedridden for 3 months.

Visual and Hearing disturbances.

Poor concentration and memory.

Very bad mood.

Low body temperature.

Extreme dry and pale skin.

Very thin body with inflated belly.

Constant anxiety with panic attacks.

I feel like I'm dying.

2) Dental history (wisdom teeth removed? First root canal placed? Braces? First amalgam etc...)

Dental work took place the last months of 1998 and the first months of 1999 twelve amalgam placed.

Two wisdom teeth removed.

Two molars removed.

3) What dental work do you currently have in place? What part of the dental cleanup have you completed?

No amalgams, clean up completed last summer

4) What dentistry did your mother have at any time before or during pregnancy?

I don't know.

5) What vaccinations have you had and when (including flu and especially travel shots)? All that was compulsory when I was a child. Tetanus shots three or four times during my life.

6) Supplements and medications (including dosages) taken at time of hair test, or for the 3-6 months before the sample was taken.

Vit C

Vit B

Vit E

Magnesium

Flax Oil

D-Ribose

Alcar

MilkThistle

Glutamine.

No chelation yet.

7) Other information you feel may be relevant?

I took chlorella two years ago, since then my symptoms have increased a lot, it destroyed the last part of me that remained. I was 50% functional, now I am only 10% or less.

8) What is your location - city & country (so that we can learn where certain toxins are more prevalent).

Valencia (Mediterranean coast) Spain
