<sup>\*\*&</sup>gt;LIN = greater than linearity (highest reportable value)

## Health history for hair test 795

1) What are your current symptoms and health history?

My health issues began with mold exposure. Started 11/2011.

Past symptoms: sinus issues/asthma, difficulty recalling words, etc., brain fog, tinnitus, anxiety, depression, mood swings and chemical sensitivities.

Became sensitive to EMFs after starting MediClear Plus, while taking ALA. Not sensitive now.

Currently, I struggle with food intolerances, thiol sensitivity, fatigue, brain fog, adrenal fatigue, mild mood swings.

2) Dental history (wisdom teeth removed? First root canal placed? Braces? First amalgam etc...)

Had a few amalgams as a kid. Wisdom teeth removed in college. Lots of amalgam placed after birth of first son and before birth of second son--about 2001. Probably had first of 2 root canals about that time. No braces. 1 amalgam improperly removed and replaced with amalgam 1/2012.

3) What dental work do you currently have in place? What part of the dental cleanup have you completed?

Started with amalgam in 11 teeth, 2 root canals. I have replaced amalgam in 4 teeth with composite, over 3 visits. Will continue to replace every few weeks.

4) What dentistry did your mother have at any time before or during pregnancy?

Not sure, but I suspect she had some amalgams during pregnancy

5) What vaccinations have you had and when (including flu and especially travel shots)?

Regular vaccinations during childhood. A couple of flu shots 2000-2001. Flu shot and tdap January 2012.

6) Supplements and medications (including dosages) taken at time of hair test, or for the 3-6 months before the sample was taken.

I took 500mg ALA 2x per day, for aproximately 4 months, before hair test. Thorne MediClear Plus, daily or every other day 2 TBSP Omega 3
Fluconazole 100mg every 3 days
Mundipur Homeopathic drops 1tsp 2x
Byron White A-FNG drops
Herbal Anti-fungals
Free & Easy Wanderer (for liver)

- 7) Other information you feel may be relevant?
- 8) What is your location city & country (so that we can learn where certain toxins are more prevalent).

Woodland, CA, USA
