Health history for hair test 482

1) What are your current symptoms and health history?

tremors, bruxism, tongue and oral cavity inflammation, allergies, low cortisol, insomnia, difficulty focusing your eyes on a point, muscle weakness, muscle spasms, constipation, difficulty breathing, dry mucous, chronic epstein barr, low vitamin d...

I have visited all the medical specialities.

2) Dental history (wisdom teeth removed? First root canal placed? Braces? First amalgam etc...)

I have no wisdom teeth (I've never had). My first amalgam put me when i was a child with a cover over it. In total I had four amalgams in my mouth that removed two years ago.

3) What dental work do you currently have in place? What part of the dental cleanup have you completed?

now i don't go to the dentist

4) What dentistry did your mother have at any time before or during pregnancy?

i don't know that.

5) What vaccinations have you had and when (including flu and especially travel shots)?

rubella, tetanus, hepatitis B, measles, ... I do not know more names but the typical for children.

6) Supplements and medications (including dosages) taken at time of hair test, or for the 3-6 months before the sample was taken.

vitamin C and D, iron, magnesium sometimes

7) What is your age, height and weight?

35 years old

1,63 metres

53 kg.

8) Other information you feel may be relevant?

A thermometer broken in my hand

9) What is your location - city & country (so that we can learn where certain toxins are more prevalent).

Barcelona, Spain.
